**Subject: Tigerbay**

Dear Brent Council,

I live just next door to Tigerbay, on Slough Lane. I've lived in this area my whole life, and venues like Tigerbay and Carlton Lounge have always been part of the neighbourhood.

Growing up, I used to go to Carlton Lounge with my family it's always been a respectful, welcoming place for all ages. As I've gotten older, I now visit Tigerbay more often, and I've had nothing but positive experiences there. The staff are warm and professional, and I've always felt safe and well looked after, whether I'm with friends or family.

Because I live so close, I get to see how the venue is run day to day. They manage things really well people come and go calmly, noise is kept under control, and the general atmosphere is respectful. I know some of the management personally, including Uzi, who has even shared his contact details with me in case there's ever an issue. That in itself says a lot about how seriously they take their responsibilities — though to be honest, I've never had a reason to call. It's always peaceful and well managed.

Tigerbay and Carlton Lounge are more than just places to hang out they've become important parts of the community. They create jobs, give young people somewhere safe to socialise, and they've been part of our lives for years. It would be a real shame to lose that.

I hope you'll take this into consideration and continue to support venues like these that are run with care, professionalism, and respect for the local area.

Warm regards,

T Rizwan - Arnellan House, NW9 8XJ
