Hi Sima,

Please see my response below;

Dear Licensing Committee,

We respectfully submit this response to the objection raised regarding our application for the provision of late-night refreshment between 23:00 hrs and 03:00 hrs.

We wish to clarify an important point: the service during these hours will be delivery only. No customers will attend the premises after 23:00 hrs. This distinction addresses the key concerns raised:

Public Nuisance: As there will be no late-night customer visits, there will be no congregation of people outside the premises, no queues, and no on-site littering. Delivery drivers will collect orders swiftly and depart, minimising any potential noise or disturbance. We use electric bikes so there will be no noise pollution.

Community Impact: With the delivery-only model, residents will not experience the noise or anti-social behaviour typically associated with late-night walk-in trade. Our operations will remain discreet, with drivers instructed to be considerate when collecting orders.

Precedent Setting: Granting this licence does not set a precedent for late-night trading that disrupts the community, as the application is strictly limited to delivery-only service. This ensures that the residential character of the neighbourhood is preserved.

Safeguards: We are committed to operating responsibly. Measures will include:

Clear instructions to drivers to avoid idling engines and unnecessary noise.

Internal order management to minimise waiting times for drivers.

Regular monitoring of the premises to ensure compliance with licensing conditions.

In summary, our proposal does not pose the risks described in the objection, as no public access to the premises will occur after 23:00 hrs. Instead, the delivery-only model allows us to meet demand responsibly, without compromising residents' wellbeing or the local environment.

We therefore respectfully request that the Licensing Committee approve the application.

Kind regards,

Divneet
