I object to this planning application. There are already multiple gambling outlets in the Willesden Green area, the addition of another changes the mix of businesses and tips the balance away from community use. They encourage anti social behaviour which further discourages the community, especially women and elderly people, from shopping on the street. I object to there being easy access to multiple gambling premises, run by businesses whose main driver is profit, paying no regard to individuals' addiction or inability to pay for their gambling habit, destroying the lives of individuals and their families.
