

06-04-26

There already exist several gambling premises within an incredibly short distance of this building, including two slot machine shops and two betting shops. As a local resident with a young family it is inappropriate for a further gambling shop to be opened. The high street is already beset with problems including antisocial behaviour, begging, drug taking etc, we need businesses on the high street which will contribute to and serve the majority of the local community, not more of the same which add little value for most local residents.
