

07-04-2026

I strongly object to the proposed adult gaming centre. This development This development poses a clear and unacceptable risk to our community. Evidence consistently links such venues with increased anti-social behaviour, crime, and public disorder. Introducing this into a residential area will directly undermine the safety and wellbeing of local residents. Most concerning is the impact on children. This site is located along daily walking routes to school, exposing young people to a gambling environment that is wholly inappropriate and potentially harmful. The normalisation of gambling in close proximity to children is irresponsible and unacceptable. Our neighbourhood is a family-oriented community. This proposal does not serve local needs and will instead damage the area's safety, character, and cohesion. I urge you in the strongest possible terms to refuse this application.
