

10-04-2026

I strongly object to this application. The Willesden area already has AGC's and high levels of antisocial behaviour, including begging, drug activity and loitering, particularly along Walm Lane and the area around Willesden Station. Adding an Adult Gaming Centre would increase fear of crime, reduce safety and further downgrade the character of the high street. The location in a residential area is clearly not suitable for a casino which would place it in proximity to nurseries, schools, after school clubs (only 2 doors down) places of worship and an established residential community. It totally contravenes Brent Local Plan policies BE5, BE1 and BT1 and London Plan Policies D3, S1 and T2.
