

10-04-2026

I strongly object to this application. The Willesden area already has AGC's and high levels of antisocial behaviour, including begging, drug activity and loitering, particularly along Walm Lane and the area around Willesden Station. Adding an Adult Gaming Centre would worsen these problems, increase fear of crime, harm nearby residents. The proposal would reduce safety, harm the character of the high street, and is not suitable for this location.
