

11-04-2026

My objection is based on the licensing objectives set out in the Gambling Act 2005, specifically the need to protect vulnerable persons and prevent crime and disorder. I am concerned that the proposed location is close to [e.g. a school / residential area], which may expose children and vulnerable individuals to gambling-related harm. Additionally, there is already a concentration of similar premises in the area, which has contributed to anti-social behaviour and disturbance. I believe granting this licence would negatively impact the local community and undermine the licensing objectives.
