

**11-04-2026**

Willesden has more than enough gambling shops and does not need any more. There are a high number of individuals below the poverty line here with a council on its knees trying to support them and many other vulnerable adults and families. We do not need another company where additional money is leached out of the area. The negative impact on society from gambling establishments is clearly documented and profound. I object in the firmest of senses.
