

25-04-26

I object strongly to the addition of an adult gaming centre at 1Walm Lane in Willesden Green for the following reasons: 1. This centre is too close and too available to local schools, food banks and other institutions that serve minors and vulnerable populations. There is a significant footfall in that area of just such populations, particularly minors. With an ever-shrinking provision of services and locations for minors outside of school, this gaming centre will be all the more attractive to vulnerable youth. 2. I have great concerns about this centre contributing to anti-social behaviour both during the day and late at night. Again this will be a magnet in a highly visible and trafficked area and Willesden Green already has a reputation for this kind of behaviour. Please build a well-run youth centre/cafe instead! Imagine what that would do for our community and what it would say about Brent's commitment to the future.
