

26-04-26

Clearly a ludicrous plan considering the high prevalence of gambling sites in the area, the fact that we have had murders/assaults which started from within local gambling sites, and that there is a direct correlation with drug dealing and other illegal activities. Not a single human in the local area wants this, and 90% are likely against. If you approve it, you're just asking for more local issues. But you do you.
