

29-04-26

Children and other vulnerable people need to be protected from being harmed or exploited by gambling. There is a high level of footfall from minors in this location. A gambling establishment in this location will be situated too close to local schools and foodbanks. There are already too many gambling establishments in a very small area of Willesden. There is already an increase in shoplifting, robbing people in the streets and other anti social behaviour related to late night gambling in the area. It is also not clear what is being done to ensure that gambling in these establishments is being conducted in a fair and open way.
