I am objecting on the grounds set out in the Licensing Objectives of the Gambling Act 2005. I believe strongly in the importance of: Protecting children and other vulnerable persons from being harmed or exploited by gambling: Reference the proximity to local schools, foodbanks and the high footfall of minors at this junction. Preventing gambling from being a source of crime or disorder: Highlight concerns regarding anti-social behaviour often associated with late-night high-street gambling hubs including shoplifting. Ensuring that gambling is conducted in a fair and open way: (Usually less applicable for residents, but can be used to question the operator's transparency). Gambling is harmful, particularly to vulnerable people who are vulnerable to addiction, and can have extremely detrimental impact on their lives, safety and to the lives of those around them, particularly in the cases of children of addicts.
