Given that there have already been one too many gambling shops in vicinity, we definitely don't need another.why would you fuel gambling addictions? We want businesses to thrive and gambling doesn't help the local businesses.This is an area where communities like families both young and old passing, and having another gambling shop in prime spot is reckless. We know its bad influence on society /kids/adolescents and also risks antisocial behaviours (drunks and violence) by the addicts, this affects safety of the neighbourhood. Gambling shop does not help or support the local businesses to thrive but will turn people away and reduce the footfall in that area. Brent please listen to your local community!
