Dear Wendy

As per my telephone call just now I am making an objection to your application based on concerns that the event has potential to cause a public nuisance.

That is not to say the event cannot go ahead .My biggest concern is that the venue is in relatively close proximity to residential housing and the event is planned to run throughout the night until 7am. If you can agree to Conditions which will control the potential noise that may arise from this event then it maybe possible to withdraw the objection. My main concern however is the event terminal hour been 7am.

You said you had heard from Nick Mortimer from the Police (Licensing) and you were to provide him with details of Security and the sound.

I would like you to specify whether you will be using an in-house music system, or providing your own, or even hiring a music system.

I would also like you to specify what the equipment is (ie, CD mixer / turntables / amplifier / bass box / speakers) with specific focus on the equipment make and model and especially the power output in Watts of any amplifier/s and speakers. Can you please provide that asap.

If you can also give me details of how you intend to ensure that noise from amplified music, from guests being outside and from guests leaving the event will not cause a nuisance to nearby neighbours that would be a good start.

Please don't hesitate to come back to me if you need any assistance.

Regards

Martin
