**Date:** 25/07/2013

**Premises:** 89-91 Kenton Road, Harrow, HA3 0AN

**Type of Application:** Variation

I would like to confirm that I have considered the above proposal with regard to the prevention of public nuisance. On behalf of the Nuisance Control Team I would like to make representations to the Variation on the following grounds

Currently the premises is licensed to remain open to the public until 2am. The applicant had informed me that the purpose of extending the hours to 4 am is for the occasional events during the year including New Year celebration. The applicant should be advised to apply for Temporary Events Licence if this is the case.

If the application is for regular events, then the proposed operating hours are inappropriate due to the close proximity of residential dwellings.

The operating schedule does not address the prevention of public nuisance from:  
airborne entertainment noise and structure borne noise or vibrations from entertainment.  
noise generated by customers in the semi-enclosed frontage of the premises used as shisha bar.

I would recommend the following alterations/conditions to the operating schedule:

- 1, The premises closes no later than 2am
2. The applicant should provide evidence that the premises has been constructed to resist the transmission of sound (both airborne and structure borne) to neighbouring residential premises.
