I would like to confirm that I have considered the premises licence review application ref no 223372767 from the Metropolitan Police.

On behalf of Regulatory Services (Nuisance Control Team), I wish to make representation to support the application for a licence review on the grounds that that the likely effect of the grant of a licence is detrimental to Licensing Objectives primarily the prevention of public nuisance due to the close proximity of residential premises.

A noise abatement notice was served on the licence holder on 25/10/2006 and since then the Nuisance Control Team (NCT) continued to receive complaints of loud music. Breaches of the notice had been witnessed by NCT which resulted in prosecution in 2013.

In August 2013 , the licence review hearing decided that no regulated entertainment should take place after 23.00 hours until the premises was sufficiently soundproofed against noise breakout. To date, NCT has received no evidence that these works have taken place and no details of sound insulation have been submitted to the Council. The last complaint received was in November 2014..
