

Full Council – 12 October 2009

**Motion selected for debate by Councillor Bob Blackman,
Leader of the Conservative Group**

Disruption to key public sector services

This Council notes the proposed strike by members of the RMT on the Victoria Line on 5 October and threats for further strikes on the London Underground. This Council also notes the result of the ballot for the proposed strike by postal workers.

This Council condemns these attempts to disrupt key services in the public sector by irresponsible union bosses which, if implemented, will lead to massive disruption to services to Brent residents.

This Council believes that these threatened strikes have echoes of another “winter of discontent” and, coupled with increasing unemployment and economic failure, will only serve to heap more misery on the Brent public.
