

Online Rep 04 – 13-15 Walm Lane – Ref: 13072

Dear sir and madam; I would like to make a representation for following grounds;

- 1) I can't see any notice on the windows or anywhere as I can see they removed it so no one can see it.
- 2) area is an conservation area.
- 3) There is a lot of crime and noise in the area as they're already opening till early morning which I don't think they have a late opening promise hour licence at planning or Licencing .I cant see any when I search on Brent planning and Licencing .they already joint 13 to15 wall lane without a n application they also put a new shop front without planning.
- 4)they also demolish the back area and rebuild an extension without planning permission .
- 5)they also done interior and exterior alteration and joint to units without panning.
- 6)they also put a canopy without permission.with considering all this points think they can do anything as they wish .it should not be easy that much as we have a very residential community and schools in the area and adding another promise which will open and serve Algol till early morning will make it worse .

Please consider my points and I like to hear back from u regards

Whom it may concern; I have been to the restaurant which is made application for Licencing alcohol and Late opening hours which I observe they already Start to serve alcoholic beverages and also opening till morning before approved application. This gives me a feeling that this people re so greedy as has no respect for Community and law there for I m looking forward that u consider also look into stop them serving this crime regards. (When u go to back bar area and ask for a alcoholic cocktail they serve u !! Also they don't display consultations notice on the windows!!)
