**To:** Business Licence  
**Subject:** Objection to application number 13072

Hi,

I am writing to object to application 13072, please could you let me know the process for this or direct me to where on the website I can fill in any required information?

I am objecting as the owner of \*\*\*\*\* that backs onto the alleyway, that backs onto 13 Walm Lane.

My main objections are:

The rubbish is left in the alleyway and this has brought rats.

Billowing smoke and cooking smells come out of the chimney and engulfs my terrace and comes through my windows.

Doors are left open and the noise of the kitchens can be heard late into the night/early morning as the machinery is right by the doorways.

Cars and vans use the alleyway (which is private land and they shouldn't use), they get trapped in the alley way and sound their horns at all hours to raise attention to the person blocking them in.

Walm lane is part of a conservation area

(<https://www.brent.gov.uk/media/16402731/willesden-green-conservation-area-appraisal.pdf>) and what were gardens are now being used for industrial use.

The purple light emanating forward reflects off the opposite building and effects my property.

Staff and deliveries are using the back alley late at night and this alley way is for entrance to the flats not for business premises.

Kind regards,
