Dear Tilly Burton

I tried to speak to you by telephone just now.

Environmental Health as a Responsible Authority have considered the application for restaurant/café.

We wish to make a representation on the basis of the potential for public nuisance arising from patrons dispersing from the premises at noise sensitive times. The application is seeking a terminal hour of 01:30am, seven days a week. The area, whilst not especially residential, does include nearby residential units (including newly developed units), and a hotel.

We have reviewed the proposed condition toward preventing public nuisance. It appears condition #7 is missing.

Nevertheless, as this proposal is a new venture, we wish to propose revised terminal hours. In the event that the business can show a period of operation without causing or attracting public nuisance, an application to vary a premises licence could be made to secure the original hours. We consider this approach and the revised terminal hours to be reasonable:

Sunday to Wednesday: Midnight

Thursday to Saturday 00:30hrs

(Drinking up time would be factored in as minus 30minutes to the revised terminal hours.)

I am in the office today and tomorrow evening and will then return to the office on 25 August.

The case reference is: SR/10161/18

Kind regards

Martin
