**Subject:** Fudam restaurant licensing application OBJECTION

Dear Committee members,

I object to the license request based on the previous attempt by Fudam and the reasons giving by the Brent Council Trading Standard's officers. As a resident at Braemar Ave we have expressed in many ways the policy of Brent Council in safer neighbourhoods and the effects of anti social behaviour in our streets. We believe that it is the duty to uphold your own aspirations for Brent to be safe for all that reside there including the elderly and children.

You have previously declined the initial application and we we raise the same reasons as expressed then that these are upheld.

We trust you will make the correct decision based on your own licensing policy and one that favours residents wishes to maintain or attempt to keep our streets free from littering, noise and many other factors that are being expressed continuously by residents.

Regards
